## Stryker stretcher monitor mount

View the complete brochure and data sheet for Safety Arm 500 model mounting system The Safety Arm 500 Model mounting system (Clamp Block Sold Separately) for Stryker stretchers allows you to take your defibrillators with you safely from one place to another on the patient's stretcher. You simply need to have the right Technimount Bracket Pro Serie that adapts to your defibrillator device. Flexible Options The Safety Arm System™ can also be installed easily on the left side of the Stryker stretcher, providing first responders with a flexible solution to meet the needs of their ambulance layout. The angled Safety Arm System™ is also available to allow more clearance while using multiple portable devices and especially used jointly with the Safety MD Transporter. Product highlights • Certified for high impact resistance according to SAE J3043, with a medical device • Less than five-minute installation • Lightweight material, high-grade aluminum • Minimum space and weight on the stretcher • Anodized and electrochemical coating for better durability & scratch resistance • Easy access to defibrillator and stretcher from both sides • Easy access to O2 • Enfolds the stretcher's original frame - No modification needed • Compatible with Standard or Power-Load System • Safe and resistant to impact • Low maintenance cost, and non-lube system • Compatible with other the Bracket Pro Serie™ and Xtenston Pro™ mounts • Custom color optional • Biological-fluids, sodium-solution and rust-resistant • One-year full warranty Designed for • Stryker Stretchers • Patient beds • Patient-evacuation and transport stretchers • EMS Vehicles Home » New & Recertified Medical Equipment » Cabinets, Mounts, and Stands »

Technimount - Right Side Safety Arm System for Stryker Stretchers Description Additional information Lightweight and durable high-grade aluminum mount that is built to last. Adapted to work both upright and laying down for all defibrillators. 360-degree swivel base locking system requires no vertical movement for locking which is more convenient and safer. Unit locks and releases instantaneously. Fast and easy install onto the device, with no modification to the defibrillator or stretcher. Made of aluminum with an anodized coating of 15 microns, the mount and base both resist rust, sodium, and biological fluids. Technimount has engineered a lightweight but durable mount that has been crash-tested up to provide the safest option for both patients and medical professionals. Technimount - Bracket Pro Serie 40 for Philips HeartStart MRx - 300-00-PHBG Eitan - Sapphire Infusion Pump Triple Mount - 17000-020-0008 \$1,600.00 The Safety Arm 500 Model mounting system for Stryker stretchers allows you to take your defibrillators with you safely from one place to another on the patient's stretcher. You simply need to have the right Technimount Bracket Pro Serie that adapts to your defibrillator device. We have safety arms that fit on both the left side and the right side of the Stryker stretchers, depending of your ambulance layout Description Additional information Reviews (0)

With Technimount System you can effectively secure medical equipment. Our robust and certified mounting systems can help you avoid costly repairs, complete replacement of equipment and possible injuries to patients and crew. Flexibility where it matters most Technimount System offers flexibility to the emergency medical services (EMS) market and hospital environments. We create medical mounts that adapt to different brands of portable medical equipment (ZOLL, PHILIPS, PHYSIO-CONTROL) for ambulances, stretchers and crash carts. We understand your needs Our experience with the industry's largest companies as well as our team's knowledge in the medical field gives us the edge to develop innovative solutions for the different markets and applications. Technimount Systems has partnerships with some of the best medical device manufacturers, ambulance builders and stretcher manufacturers. Our systems are used by hundreds of clients across Canada, the United States, and Europe. Choose the best medical equipment adapted to your reality. Our systems give you that freedom. HD and 4K monitor mounting solutions Our monitor mounting solutions provide you ultimate flexibility in room design with custom arm lengths and multiple configuration options to meet your needs. \$1,045.00 Technimount's Bracket Pro Serie™ 35 mounting systems are designed to give you fast and flexible access to the Stryker (formerly known as Physio-Control) LIFEPAK 15 monitor/defibrillator. This is crucial, especially in times of emergency. When you combine your Bracket Pro with a Technimount base, stretcher system or wall mount, you can safely and rapidly move your medical devices from one place to another, where you need them most at that time for your patient. This will also support your crew and protect them in case of an accident. Description Additional information Reviews (0) FEATURES: Certified for high impact resistance according to SAE J3043, with a medical device Small and lightweight for minimum space usage Fast and safe red release handle lock system Unit locks when pushed (no action needed to lock) and releases instantaneously Locking system resists to impacts of many times the G-Force 360' swivel base with a locking system (no free rotation) Protected with an anodized coating of 15 microns, and latex free Gives access to all pouches on the carry case, even on the back of the unit Resists to biological fluids, and sodium Rust-resistant, made of high-grade aluminum 1-year full warranty Designed For: Stryker LIFEPAK 15 monitor/defibrillator in: Ambulances Stretchers EMS Vehicles Helicopters Aircrafts Military vehicles
